STRENGTH THROUGH QUALITY & BEAUTY

INTRODUCING OUR CUSTOM EURO-STYLE CABINETS...

QUALITY AND STYLES - FULLY CUSTOM

Introducing **Blackgold Cabinetry**, where European style meets 100% customization. Our signature line embodies the latest trends in modern design, paired with uncompromising quality production. Crafted with precision, our cabinets are not just aesthetically pleasing but also highly functional, featuring soft-close hinges and slides for seamless operation.

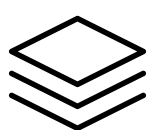

What sets us apart is our commitment to sustainability. Our eco-friendly cabinets are engineered to endure scratches and withstand the rigors of daily use, ensuring longevity without sacrificing style or the environment. Experience the fusion of style, functionality, and eco-consciousness with Black Gold Cabinetry. Elevate your space with cabinets that reflect your individuality and commitment to quality living.

Beautiful. Long Lasting. Durable Surface Textures.

At **Blackgold Cabinetry** trendsetting design meets superior craftsmanship. Our collection showcases sleek, modern styles crafted with the utmost attention to quality. Each cabinet is not only stylish but also highly functional, boasting soft-close hinges and slides for a premium experience.

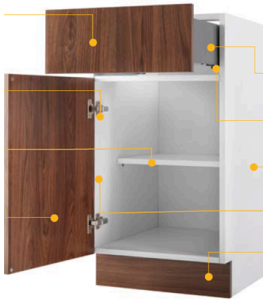

We take pride in our commitment to sustainability, offering eco-friendly cabinets engineered to withstand the rigors of daily use, including scratches and wear. Our Limited Edition selections are exclusively available within the Black Series, ensuring you stand out with unique, high-end designs.

At **Blackgold Cabinetry**, we prioritize versatility. While our default construction material is high-quality plywood, we also offer options with particle boards, ensuring that every customer's needs and preferences are met. Experience the sophistication and durability of the Black Series – where luxury meets functionality. Choose **Blackgold Cabinetry** for a kitchen that epitomizes contemporary elegance.

Interior construction Options

MELAMINE INTERIOR

Melamine is a popular plastic material for every modern cabinet builder which can either be used to laminate a design onto substrates like plywood or particleboard or can be used in building kitchen cabinets more specifically when integrated with MDF or Particle Board, which are made from wood chips to form HPL or TFL.

One thing users love about Melamine is that the material is not only durable but also highly resistant to scratch and has numerous possibilities of hues and patterns. That's why Melamine fused with plywood is arguably the most sustainable option for cabinetry,.

Advantages Of Melamine Wood

- Engineered products from Melamine are typically less expensive and have proven to be as reliable as possible.
- Melamine boards feature a uniform surface that is quite durable and resistant to scratch, stain, heat, and fire.
- The typical Melamine surface is waterproof and hence can be cleaned up with soap and water.
- The lack of wood grain in a Melamine board is one thing most people prefer, especially those who want solid colored cabinets, and melamine is always available pre-finished in a variety of colors.
- It offers a smooth finish that is ready to use without much construction waste.
- Cutting melamine is pretty easy as long as you have the right equipment. You can use a saw with a scoring unit and CNC routers as it helps to prevent chipping. It's also important to support the material while cutting to reduce the incidences of breaking.

PLYWOOD INTERIOR

Plywood cabinets are manufactured from multiple layers of softwood veneer glued together in such a way that the grain direction of each of the veneer layers is perpendicular to that of the adjacent layers.

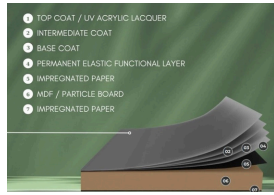

What this means is that the grain directions are arranged in an alternating pattern to give the plywood maximum uniform strength.

Advantages Of Plywood Cabinet Construction

Some unique advantages of opting for plywood:

- Hardwood plywood is typically a highly durable material because of its great quality in strength. Plywood is fabricated with an alternating pattern of grains which makes it last longer than fiberboards (including MDF, HDF, and Particle board).
- The versatility of plywood allows the layers to be altered to afford both strength and beauty.
- It's available in a wide range of sizes, including extra-large sizes
- Plywood is a very close substitute to real or solid wood but doesn't promote as much deforestation as solid wood products.

BUILD TO LAST

DURABLE FINISH

Multi- layers system provides added value with protective layers to resist scratches and stains.

QUALITY CONSTRUCTION

High-quality construction material, high-grade white melamine or 3/4" plywood.

SOFT-CLOSING DRAWERS

Full extension slim double wall high quality steel drawers or solid wood dovetail with drawers glides featuring soft close design.

SOFT-CLOSING HINGES

European-style cabinet hinges are the hardware of choice for most manufacturers and woodworkers. Featuring integrated soft-close technology to prevent doors from slamming shut.

BUILD TO LAST

Blackgold cabinets exceed the standards set by KCMA. They are an investment in the overall value of the home and will last for many years to come.

STRENGTH THROUGH QUALITY & BEAUTY

100% CUSTOM- PERSONALIZED – PROFESSIONAL INSTALLATION

Our latest addition is our optically flat, pristinely reflective Mirror Panel which many closet manufacturers are incorporating into their projects.

Designed to replace glass mirror, StyleLite Mirror offers a superior alternative due to its lightweight and ease of workability with most standard tools.

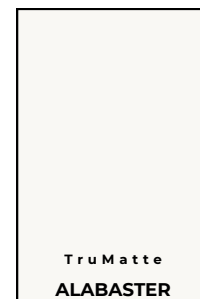

Our closet system is perfect for closet doors, shelves, and dividing and end panels.

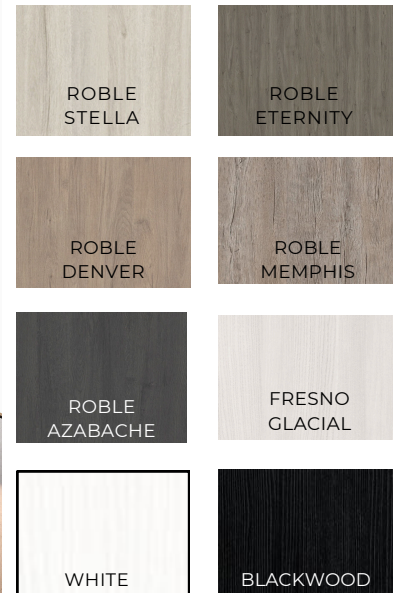

Incomparable in Closet Applications

Our panels are perfect for closet doors, shelves and dividing and end panels. Combining incredible bending properties and long panel lengths (can be designed and fabricated to create the most beautiful, sophisticated and striking cabinetry and closet elements including thick seamless panels and shelves.

DUO WOOD GRAIN COLLECTION

REACH-IN CLOSET:

Ah, a reach-in closet! It's clear that every aspect has been carefully considered to optimize space and accessibility. The hanging space is crucial, particularly for growing kids, having their sports equipment within easy reach is a practical touch. The deep, soft-close drawers offer both functionality and luxury, perfect for keeping smaller items organized and accessible. And those adjustable shelves are a game-changer for ensuring shoes are neatly stored and out of the way. Overall, it sounds like a dream closet setup!

LINEN CLOSET: Creating a custom-designed linen closet tailored to your specific needs is a great idea. Inventorying your belongings allows for a more efficient use of space, ensuring that everything has its place and can be easily accessed when needed. Plus, having extra room to spare means you can accommodate new additions to your linen collection without feeling cramped. A well-organized linen closet not only streamlines your daily routine but also adds a touch of order and elegance to your home.

WHAT TO EXPECT

DESIGN SERVICES

Our professionally trained design consultants know how to listen and collaborate to create a custom design that matches your needs, lifestyle, and aesthetic.

YOUR SPACE – IN 3D

After carefully taking measurements, we'll create a virtual/digital model of your design, so you can view it from every angle and watch how it will function.

PROFESSIONAL INSTALLATION

Being invited into your home is a privilege. That's why our installers will protect your floors and, when finished, will make sure your new system is clean and ready for use.

QUALITY-CONTROLLED MANUFACTURING

Our carefully curated palette of finishes is selected for both quality and durability. Using screen-to-machine technology, components are built to your design measurements.

OUR PROMISE

Superior customer service is the cornerstone of any successful business, as it ensures that clients feel valued and supported throughout your experience with our company.

Quality control is essential for delivering consistent and reliable products and services, . **Professional installation** ensures that our customers receive the full benefit of our offerings, maximizing your satisfaction and reducing the likelihood of issues arising. Finally, **setting and meeting expectations** is crucial for fostering transparency and trust, as it allows our customers to know exactly what they can anticipate from us and ensures that we deliver on our commitments. Our promise is a commitment to excellence and customer satisfaction, which are key ingredients for long-term success.
